Cable System Painting 067 C-COA-PSR.067

At 0930, I discussed the day's activities with Ron Morgan. He said that environmental readings were taken at 0900, with an ambient temperature of 61 degrees, steel temperature of 50 degrees, relative humidity of 55%, and a dew point of 50 degrees.

He said they would be putting the latex primer on the sockets at PP 102N. Along the EB bridge, they will be placing the 2nd coat of interzinc primer on the sockets at PP 98S, 100S, and 102S.
